

Risk Assessment

Your employees are your greatest asset – we can help you look after them

Do you know what your fleet's risk rating is? How do you assess, identify and control driver risk if you have five or more employees? How do you reduce your drivers' risk?

An online risk assessment with targeted eLearning from IAM RoadSmart is a quick, cost-effective way to answer these questions. It identifies high-risk drivers who need urgent on-road training and provides targeted eLearning for others.

Risk assessment and eLearning helps you comply with the Health and Safety at Work Act 1974.

Format	Online
Risk Assessment Duration	20 minutes
eLearning Duration	20 minutes each

Which eLearning course do I need?

Act now

For drivers involved in multiple collisions or incidents.

Attitude

Reinforce the importance of having the right attitude and focus while driving.

Avoiding damage when parking

Helps reduce damage to vehicles while parking and being parked.

Avoiding rear end collisions

We demonstrate how to reduce the chance of causing or being involved in a rear end collision.

Drink/drug driving

Reinforces the message behind why drink/drug driving is dangerous.

Driving while distracted

Explores the dangers of multi-tasking and the importance of staying focused while driving.

Fatigue

Examines the causes of fatigue and provides guidance on how to reduce the risk of being tired while driving for work.

Lane changes

Addresses the challenges of changing lanes, merging and overtaking safely.

Rural road safety

Highlights the risks and hazards involved with driving on rural roads and how to plan for them.

Speeding

Explores how speed is the biggest contributory factor in collisions and the dangers of speeding.

Zero

Aimed at drivers who have experience, drive for work most days and generally have the right attitude and behaviour on the road. We emphasise the dangers of monotony and complacency and equip drivers with the knowledge to continue driving without incident.

Off-road

Explores planning when travelling in remote areas and the challenges of different locations.

Road warrior

Examines why being a sales and service professional is a high-risk job and how drivers can limit the dangers they face on the road.

Wellbeing

Examines the importance of drivers taking care of their health and how making simple changes to their lifestyle can improve safety on the road.

How can a Risk Assessment help me?

Unlike some online risk assessments that are often seen as a selling tool, road safety experts and academics independently verify our risk assessment algorithms to ensure the course accurately reflects the risk a driver poses.

The online course takes just 20 minutes to complete. Users receive an email with instructions, a company code and driver PIN. They answer questions with multiple-choice answers.

Once your drivers have completed the risk assessment, they'll receive a certificate and feedback on their risk rating.

The risk assessment will then determine which of our eLearning courses your drivers require and allocates up to four subjects.

Why choose us?

At IAM RoadSmart, we make better drivers and riders. As a registered UK charity formed in 1956, our aim has remained the same over 60 years – to make our roads safer by improving the skills of drivers and riders.

Our customers are post-licence drivers and riders, of any age and ability. Our services are designed to teach new skills, improve existing ones and provide confidence and knowledge to get the most from being on the road.

Our experts develop the skills of drivers and riders through recognised training and offer friendly advice and support.
